### The Astronomy of Pluto: Planet or Dwarf?

**The initial criterion was simple.** To be a planet, the body had to be orbiting our sun, and they had to be round. If the first proposal passed,

we would  
'have gone  
from 9 official  
planets to 53  
immediately.'

**Self-love and acceptance.** The wonderful exercise suggested by Good Vibe Coach [Jeannette Maw](#) of spending 5 minutes a night before bed, staring into the mirror and telling yourself how worthy you are works magic, especially during the transit of Pluto through Capricorn. Do this for 40 days in a row and you'll be amazed at the results! (If it's confronting to do, you REALLY can benefit even more!)
